gWorks

Your Local Government Operating System

A tightly integrated, easy-to-use suite of applications to handle the critical functions of your government. Anytime. Anywhere.

Finance & Budgeting
Simplify all your government accounting & budgeting processes

HR & Payroll
Process payroll with the configurability to meet the needs of your government

Citizen Engagement
Provide modern accessibility, convenience, & transparency for your citizens

Utility Billing
Manage all your utilities and assess & collect associated charges for your residents

Operations Management
Create, assign, & track work related to Zoning, Public Works, & Building Management

Asset & Property Mapping
Display your infrastructure & properties digitally to improve awareness & mitigate risks

Simplified Processes
Fewer steps & more automation means staff can complete their daily, monthly, and annual processes in less time with less data entry & less stress.

Connected Experiences
A variety of self-service tools for government users and the public helps increase resident satisfaction while saving you time!

One, Easy-to-Use System
A consistent user experience throughout, along with in-app resources like tutorials & articles, makes learning the software quick & easy for all users!

More Secure Data
Security measures, like data encryption, give you peace of mind that your government's data & sensitive information is protected & secure.
